## Welcome to DialogLink - Version 5 Revolutionize the Way You Work!

Reconstruction of sub RF20  
in all NPL dbs for 7/15/14\*

### New on Dialog

#### Enhanced Derwent World Patents Index Now Available

The enhanced *Derwent World Patents Index*® (DWPI<sup>SM</sup>) (Files 350,351,352) is now available on Dialog. The improvements implemented in DWPI on Dialog further extend the database's rich content set and enhances overall functionality of the database.

Search originally  
performed in May 2006  
but is not in IFW.

In addition to distilled expert analysis reflected in DWPI expanded titles and abstracts, other enhancements include original patent filing details, multiple patent images, easy cut-and-paste patent family data, and much more.

The new templates include new features that will help you manage and distribute your DWPI search results in an attractive format.

Learn about all of the new DWPI enhancements and report templates at <http://www.dialog.com/dwpi>.

#### DialogLink 5 Release Notes

New features available in the latest release of DialogLink 5 (November 2005)

- Ability to resize images for easier incorporation into DialogLink Reports
- New settings allow users to be prompted to save Dialog search sessions in the format of their choice (Microsoft Word, RTF, PDF, HTML, or TEXT)
- Ability to set up Dialog Alerts by Chemical Structures and the addition of Index Chemicus as a structure searchable database
- Support for connections to STN Germany and STN Japan services
